

Seams to You!

Description:

Since its modest beginning as a home-based enterprise, Seams to You! has delighted clients with unique, handcrafted clothing, accessories and home décor items as well as quality alterations. Thanks to the Internet, many more shoppers will have the opportunity to visit Seams to You!, where they may enquire about a home décor project or choose from a few select items currently available online. I'm pleased to say that everything offered is created in my shop by me personally, allowing you, the customer, to feel confident about the source and production standards of your purchase.
